

Industrial high bay and large areas projector.

POWER-FLEX LED

POWER-FLEX-01 72 LED, POWER-FLEX-02 48 LED
POWER-FLEX-03 24 LED, POWER-FLEX-03 12 LED

About the product

The product POWER-FLEX LED is designed for general indoor and outdoor lighting for large area with high heights (10-14m) and very high heights (20-30m) Through its construction the product allows the orientation of the optical modules with $\pm 20^\circ$ that gives flexibility for the use both for achieving a focused lighting for working areas, or for obtaining large distributions for logistic areas with racks..

EN 60598	RoHS	IP66	IK08		-40°C ÷ +50°C	39÷236W LED
----------	------	------	------	--	---------------	-------------

Application

Indoor and outdoor general lighting for: rooms or areas with high height (10-14m/ till 25-30m), industrial plants, warehouses, sport areas, commercial spaces, petrol stations, tunnels etc.

Light source

- Power LEDs, white, with the colour temperature cool-white 5700K, CRI≥70, with a long lifetime at Ta=25°C:

B10			B50		
L90	L80	L70	L90	L80	L70
115,200 hours	>181,000 hours	>181,000 hours	116,520 hours	>181,000 hours	>181,000 hours

- On request the product could be equipped with LEDs with colour temperature neutral-white 4000K, CRI ≥70/80.
- The LED system included in the product could replace or is equivalent with projectors with:
 - POWER-FLEX 72 LED: high pressure mercury lamps HME 400W, high pressure metal halide lamps HIE 250W, HIT 250W, high pressure sodium lamps HST 250W, HSE 250W
 - POWER-FLEX 48LED: high pressure mercury lamps HME 250W, high pressure metal halide lamps HIT 150W, high pressure sodium lamps HST 150W, HSE 150W
 - POWER-FLEX 24 LED: high pressure mercury lamps HME 250W, high pressure metal halide lamps HIT 100W, high pressure sodium lamps HST 100W
 - POWER-FLEX 12 LED: high pressure mercury lamps HME 125W, high pressure metal halide lamps HIT 50W,70W, high pressure sodium lamps HSE 70W, HST 70W

Advantages

The use of LEDs ensures both a long lifetime of and reduced power consumption. Easy to install and easy to maintain. Environment friendly. There are not necessary interventions for lamp replacements during exploitation.

POWER-FLEX-01 72LED

SUSPENDED MOUNTING

Suspension cable L = 3m, with Grippole type carabiner, (order code: 03117364).
In variation of suspended mounting the fixing arm can be removed or can be folded to 90°.

Description

It is a modern luminaire with LED modules.

- The projector has a simple construction, it is robust, and easy to install and maintain.
- Aluminium profile body.
- Metallic frame, made of steel sheet, in welded construction, painted with epoxy-polyestheric powder. Mounting frame with index step 10°.
- Optical system made of sealed LED modules, with index 10°, 20° and with specific light distribution: 60° (wide), 101° (extra-wide), 36°x101° (between racks), projector type 21°, 31°.
- The product has a thermal management system made of a passive aluminium profile cooler to ensure the long lifetime.
- Fast connectors IP68.
- Gear (electronic driver) included in the product and manufactured according to the specific standards, mounted on the body or on the metallic frame, sealed with the protection degree IP67, with active PFC function. Driver protection for conditions of: Output over voltage, Short circuit, Over Temperature).
- Dimmable driver protocol 1-10V for the variants DIM 1-10V.
- Surge Protection: 4kV line-line, 6kV line-earth
- Colour: grey.

Mounting

- On surface with fixed frame and screws 2xM8, 1xM12. The mounting frame is included in the product.
- On request: Suspended with Gripple steel cable.

Variants on request

- Suspended with Gripple steel cable. Code 03117364.
- Projector type mounting on pole/pipe Ø60÷Ø76mm with fixing support. Code 03113844
- With dimmable driver - DALI.
- With PIR sensor (for the variant equipped with DALI driver)
- With movement sensor (for the variant equipped with DALI driver)
- With kit DALI PROXIMITY SENSOR - Compact control module with ambient light sensor and motion sensor for 10 products. The product needs separate wiring. The sensor is mounted outside the product. Mounting height max.16m. (for the variant equipped with DALI driver)

Technical features

- Rated voltage: 230V/50Hz.
- Ambient temperature $t_a=25^{\circ}\text{C}$.
- Surrounding temperature range: $-40^{\circ}\text{C} \div + 50^{\circ}\text{C}$.
- Relative humidity: 80% at the temperature of $+20^{\circ}\text{C}$.
- Jolt resistance: 1000 \pm 10 jolts, acceleration of 10g, duration of impulse: 16ms, according to SR EN 60068-2-29.
- Glow wire test: 650°.
- The luminaire is manufactured according to the standards: SR EN 60598-1, SR EN 60598-2-1, SR EN 60598-2-5, SR EN 62031.

Compliance with the European Directives

- Low Voltage Directive
- Electromagnetic Compatibility Directive.
- RoHS Directive. WEEE Directive.

The product could be realised in more variants functions of the colour temperature of the LEDs and light distribution type.
